

Safety Compliance Group, Completes Aviation ERP Workshop for Alltech Inc., Lexington, KY.

Business News-Lexington Kentucky

Safety Compliance Group, a leading Aviation SMS Provider, selected by Alltech Inc. to produce a two-day Emergency Response Plan workshop, has successfully completed the training event in preparation for the Company's upcoming No-Notice ERP Exercise. The workshop was a significant, collaborative undertaking by Alltech's Corporate and Aviation groups, to update and improve their Aviation Emergency Response Plan, to better serve the needs of Alltech's worldwide flight operations and further improve its air safety programs.

"Alltech's selection of Safety Compliance Group for this important ERP project, demonstrates the confidence they have in our team and their satisfaction with the exceptional aviation safety services SCG provides," stated Safety Compliance Group's President James F. Driscoll. "We are pleased to continue supporting Alltech Aviation's commitment to its continuous improvement process for their aviation department, and IS-BAO based Safety Management System (SMS). We look forward to working with Alltech as they continue to implement their upgraded ERP in preparation for the upcoming No-Notice ERP Exercise." Safety Compliance Group also recently assisted Alltech Aviation with recurrent SMS training and preparations for its IS-BAO Stage II Audit, which it successfully completed in July 2015.

About Safety Compliance Group

Safety Compliance Group is an aviation SMS provider, supporting U.S. Part 121, 135, 91 U.S. and Foreign flight operations, in the development, implementation and auditing of aviation Safety Management and Operational Control systems. SCG excels in providing personalized service for customized, scalable SMS and Operational Control programs that meet the specific needs of varied aviation organizations. The company is headquartered in La Quinta CA.

About Alltech Aviation

Founded in 1980 by Irish biochemist and entrepreneur Dr. Pearse Lyons, Alltech is a leading global biotechnology company whose mission is to improve the health and performance of people, animals and plants through natural nutrition and scientific innovation. Our core business improves animal health and performance by adding nutritional value to feed, naturally, through Alltech's innovative use of yeast fermentation, enzyme technology, algae and nutrigenomics, which studies the impact of nutrition at the genetic level. Alltech Aviation operates a Gulfstream G550 and King Air 350 in support of Alltech's worldwide business travel requirements.
